

Marketplace Listing Audit Proposal

A simple first step for Amazon/eBay sellers who want practical listing feedback before committing to cleanup or monthly management.

Why start here

The audit gives the seller a low-risk starting point: send listing links, get plain-English priority fixes, then decide whether Store Cleanup, Monthly Marketplace Management, or a 60-day trial makes sense.

Standard Audit \$197 Recommended for active stores, several listings, or a meaningful marketplace problem. • Expanded review of priority listings • Title, detail, buyer-confidence, and cleanup recommendations • Priority list of what to fix first • Best next-step recommendation	Intro Audit \$97 Best for a small first step, skeptical seller, or 1–3 listings. • Review of 1–3 Amazon/eBay listings • Priority cleanup opportunities • Plain-English next-step recommendations
---	--

What the seller gets

A focused review of listing clarity, buyer trust gaps, content completeness, and practical cleanup opportunities. The audit is intentionally high-level: it identifies what matters first without giving away a full done-for-you implementation plan.

What we need Amazon/eBay links, short note on what feels stuck, product/category context, and preferred next step if known.	Not included Daily customer service, buyer messages, refunds, returns, fulfillment, full listing rewrites, legal/compliance advice, or unlimited custom work.

Recommended seller message

“The easiest first step is a Marketplace Listing Audit. We review the Amazon or eBay listings you care about most and send back the priority fixes — title, content, trust gaps, buyer clarity, and cleanup opportunities. If there is enough upside, we can then quote a Store Cleanup Package or monthly support.”
